

February 2, 2010

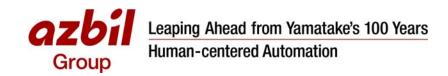

Consolidated Financial Results

for the Third Quarter of Fiscal Year 2009 ending March 31, 2010 (April 1, 2009 to December 31, 2009)

- * These projections are based on management's assumptions, intent and expectations in light of the information currently available to it, and therefore these statements are not guarantees of future performance.
- * Figures are rounded off.

Yamatake Corporation

Key Features of Third Quarter Financial Results

- Sales and profits fell compared to the same period last year, the principal cause being weak earnings for the Advanced Automation (AA) business, reflecting the deterioration in the business environment.
- Although a recovery is evident in some markets, the Advanced Automation (AA) business suffered a significant fall in both sales and profits compared to the same period last year owing to the fact that overall capital investment is still weak.
- Despite being affected by the economic downturn, the Building Automation (BA) and Life Automation (LA) businesses turned in a robust performance in differing business environments as a result of initiatives, such as maintenance and replacements, for existing customers.

[3Q financial results (cumulative)]

Sales: 138.4 billion yen

[down 20.6 billion yen (13.0%) compared to the same period last year]

Operating income: 1.3 billion yen

[down 5.4 billion yen (81.2%) compared to the same period last year]

Sales for the azbil Group tend to be concentrated in the second quarter and fourth quarter accounting periods. This means that profits in the first quarter and third quarter accounting periods are typically lower than those in the other two quarters. For historical data on sales and profits for each quarter over the past 3 years, refer to page 14.

Business Plan for Consolidated Financial Results

The forecast for consolidated financial results is as announced on October 30, 2009.

azbi Group

- Cash flow from operating activities decreased compared to the same period last year, mainly due to the impact of a decrease in income before income taxes and minority interests.
- Cash flow from investing activities increased significantly compared to the same period last year; this was partly due to proceeds from the sales of short-term investment securities, in addition to a decrease in purchase of property, plant and equipment.
- As a result of a similar improvement in cash flow from financing activities, cash and cash equivalents totaled 41.6 billion yen.

The forecast for consolidated financial results is as announced on October 30, 2009.

- For the BA and LA businesses robust performance is forecast despite the impact of the economic downturn in some areas.
- As regards the AA business, while recovery may be evident in some markets, it is expected that overall capital investment will continue to be suppressed. Efforts will be redoubled to secure profits.
- With the entire Group united to achieve the business plan for consolidated financial results, initiatives will be implemented to strengthen the business structure and hold down costs.

X Sales for the azbil Group tend to be concentrated in the second quarter and fourth quarter accounting periods, while fixed costs continue throughout the year. This means that profits in the first quarter and third quarter accounting periods are typically lower than those in the other two quarters.

To realize safety, comfort and fulfillment in people's lives, and contribute to the global environment through "human-centered automation."

Yamatake Corporation
