Yamatake Invests in Shares of Kimmon Manufacturing, the Newest Addition to the Yamatake Group. Business Collaboration Envisaged.

December 19, 2005
Yamatake Corporation
Kimmon Manufacturing Co., Ltd.
Yamatake Corporation is proactively initiating new businesses as it approaches its 100th anniversary.

On Jan. 28, 2004, Kimmon Manufacturing Co., Ltd., received supports for business reconstruction from the Industrial Revitalization Corporation of Japan (IRCJ). And ever since, the company has made progress with restructuring.

On Dec. 19, 2005, Yamatake Corporation announced that it had acquired preferred shares of Kimmon Manufacturing, which is to join the Yamatake Group with a view to further cooperative development.
Yamatake Corporation has acquired the Class I preferred share of Kimmon Manufacturing held by the IRCJ and Class II preferred share in the same company, held separately by Risona Bank and Mizuho Corporate Bank. On Dec. 19, 2005, contracts were signed for the transfer of these shares.

With this acquisition, Yamatake Corporation effectively gained the right to manage Kimmon Manufacturing—which is to become a member of the Yamatake Group—and promoting business collaboration.

**Objectives**

**Aims for business growth opportunity:** Expansion of the Life Automation businesses

- Yamatake is a comprehensive automation manufacturer centering its operations in Building Systems for building automation and Advanced Automation for industrial automation. Yamatake is seeking to develop Life Automation businesses as a third business pillar in addition to its core businesses; Building Systems and Advanced Automation.

- The lifeline field is changing and broadening: new opportunities are afforded by ongoing trends such as diversification of energy supplies, the easing of regulations and growing customer demands for greater convenience. By integrating and developing Kimmon manufacturing’s metering business and Yamatake’s measurement and control business, Yamatake aims to accelerate the development of Yamatake’s Life Automation businesses as a third business pillar.

- Kimmon Manufacturing, the newest addition to the Yamatake Group, is expected to play an important role in the Life Automation business.

**Securing competitive advantage**

- The metering expertise possessed by Kimmon Manufacturing in the gas and water services business—as evidenced in its products, technologies and metering data management—its customer relations and brand can form a powerful combination with Yamatake’s advanced technological expertise and applications capabilities in the measurement and instrumentation business focusing on control, networking and engineering. This collaboration will make it possible for the Group to broaden the scope of proposals to customers, as well as extend its competitive advantage.
In 2006, Yamatake Group's sales are expected to surpass 230 billion yen taking into account the consolidation of Kimmon Manufacturing.
Direction of Yamatake’s Business Plan
- Expansion of Core businesses and Creation of New Businesses-

**Expansion in core businesses** and utilizing strengths in measurement and control to develop **Life Automation businesses**.

**Overseas market**
- Building Systems Business
- Advance Automation Business
- Life Automation Businesses

**Domestic market**
- Building and Industrial Automation market
- New market

**Peripheral domain**
- International business
- Crossover fields of BS and AA businesses

**Creation of business in new fields by applying measurement and control technologies**

- Solution supporting a customer’s continuous development
- Solutions to social needs, such as environmental protection and energy conservation

**Peripheral domain**

**Expansion in core businesses** and utilizing strengths in measurement and control to develop **Life Automation businesses.**
Kimmon Manufacturing will play an important role in the Life Automation businesses by taking advantage of Kimmon’s strength in the metering field, and further enhance Yamatake’s businesses in crossover fields.
Concept of Collaboration between the Two Companies from the Viewpoint of Business Positions

1. Creation of a new business domain by integrating the customer base and technologies of the two companies.

2. Realization of synergy effects from interaction of the advantages (specialty fields) of the two companies that will lead to an integrated structure of services and products from metering through to control.

Kimmon’s specialty fields

Yamatake’s specialty fields

Residential market

Commercial market

Industrial market

Complementary relationship of the two companies’ business domains.
Collaboration between Kimmon Manufacturing and Yamatake Corporation

Concept

**Business Collaboration**
- Yamatake promotes Life Automation as a third business pillar in addition to its Building Systems and Advanced Automation.
- Kimmon Manufacturing will play an important role in Yamatake’s Life Automation businesses.
- Yamatake will utilize changes such as the diversification of energy supplies, the easing of regulation and growing customer demands as opportunities to grow the business.

**Operational and Functional Collaboration**
- Yamatake creates added value through operational and functional synergy among the businesses.
  - Sales
  - Technology/product development
  - Production
  - Others

Structure

Yamatake Group

- Building Systems
- Advanced Automation
- Life Automation

- People-to-people exchange
- Technology cooperation
- Complementary supply
- Sales cooperation

- To become a member of the Group.

Collaboration in Life Automation business
- Operational and functional cooperation, aiming for synergy
Efforts made by Kimmon Manufacturing

Efforts made to date

- **Restructuring**
  - Restructuring of Kimmon Group
  - Selling of dormant assets

- **Restructuring the business portfolio**
  - Selling of non-core businesses
  - Buying of manufacturing companies

- **Strengthening of the core business**

Business performance

Business performance made a substantial recovery compared to the previous year due to efforts made to improve profitability.
**Basic Stance of Kimmon Manufacturing**

**The basic stance**

**Current position**

The revitalization stage has been **finalized** due to efforts made by Kimmon Manufacturing's executives and employees to rebuild the company.

**For further improvement**

It is necessary to implement new strategies and build new business structures to ensure further growth.

---

**Benefits achieved through equity participation by Yamatake**

**Extension of the market**

- The businesses of Yamatake and Kimmon Manufacturing are complementary in nature; there is only a small degree of overlap.
- A sales partnership between Kimmon Manufacturing, a major metering device and equipment manufacture, and Yamatake, a major instrumentation and control equipment manufacturer for industrial and commercial markets, will ensure expansion of market for Kimmon products.

**Supply of comprehensive line of products and services from metering/measurement to instrumentation/control**

- Specialty fields developed by the two companies during the last century — gas and water metering fields by Kimmon Manufacturing, and instrumentation and control fields by Yamatake — will integrate to ensure the consistent supply of high value-added products and services for the metering and measurement field to instrumentation and control management.

**Strengthening technology in instrumentation and electronic fields**

- Technological cooperation with Yamatake will allow Kimmon Manufacturing to strengthen technology for instrumentation and electronic products that Kimmon Manufacturing aims to expand further.
The Yamatake Group is proud of its numerous achievements in helping to create and maintain buildings, plants, and factories.

With advanced measurement and control technologies as our core competence, we have infinite potential for growth. In the past, as in the present and in the future, our ultimate goal is to provide lifecycle solutions throughout our businesses – from development, production, sales, and installation to service and maintenance, always aiming for value creation and optimum satisfaction for our customers.

Since our establishment in 1906, we have been caring about energy conservation, environment protection and people.

As we set forth into Yamatake’s second century, we renew our commitment to the creation of new value.

Yamatake’s Life Automation businesses draw on the technologies and expertise built up through many years of experience in the building and industrial automation markets. This expertise is applied synergistically to fields closely connected with daily life.

These technologies and know-how are employed in a broad range of fields, from providing lifeline infrastructure — such as sewage and waste disposal systems, and district heating and cooling systems — to residential air conditioning, recycling machinery, food safety, life safety support, care services, and products for biotechnology, to provide people in all walks of life with improved comfort and peace of mind.

**Lifeline automation**
Safety and control of lifelines in everyday life such as energy and utilities.

**Life care automation**
Business to support health and provide safety and peace of mind in everyday life.

**Life science automation**
Business to support life science related industry with automation.
