As regards dividend per share for the year ended March 31, 2025, if the stock split were not taken into account, the latest forecast would be 44.00 yen, and the determined amount would be 52.00 yen.

### 2. Reason for the decision

As the Company considers the return of profit to its shareholders as one of its important management issues, the Company aims to maintain stable dividends while comprehensively taking into account consolidated business performance, ROE, DOE, retained earnings for future business operation and corporate structure fortification, etc. and striving to improve the dividend level.

As for the year-end dividend per share for the fiscal year ended March 31, 2025, it has been set at 13.0 yen,

which is a 2.0 yen increase from the latest forecast. Under the purpose of returning more profit to shareholders, we comprehensively consider record profits achieved for the fourth consecutive fiscal year by recording higher operating income for the fiscal year ended March 31, 2025 than the revised forecast for consolidated financial results, which aimed at exceeding the operating income target for the final year of the medium-term plan (FY2021-2024), thanks to growth in revenue and measures to enhance profitability; financial position for the fiscal year ended March 31, 2025; and the future business environment, etc.
