Detect Cyberattacks that Have Penetrated the Factory, Building, or Office

VISUACT™ Series Network Sensors
A network monitoring solution based on VISUACT technology, which visualizes Windows networks

VISUACT™ technology

Technology that offers real-time analysis and visualization of the vast numbers of network packets transmitted over internal networks

TAAN1™ Technology

Technology that analyzes vast numbers of network accesses to detect cyber attacks in real time

Decoy Server

Detection technology for cyber attacks, specialized for control systems

Offices
VISUACT™3
VISUACT™X

Buildings
VISUACT-V (BA)
BACnet

VISUACT-V
VISUACT™X

Factories
