# SystempaK <br> Multi-I/P Converter <br> Model KUX111 (Multi-I/P Converter) Model KUX118 (Converting Module) 

## Introduction

Multi-I/P Converter (Model KUX 111) accommodates up to 8 units of converting modules, each of which converts an electrical current signal into a pneumatic pressure signal. The instruments are of a 2-wire type and are extremely compact. They are ideal for highly packed interfacing instruments for digital control systems.
