SAFETY PRECAUTIONS

Safety precautions are for ensuring safe and correct use of this product, and for preventing injury to the operator and other people or damage to property. You must observe these safety precautions. Also, be sure to read and understand the contents of this user's manual.

WARNING

Warnings are indicated when mishandling this product might result in death or serious injury to the user.

CAUTION

Cautions are indicated when mishandling this product might result in minor injury to the user, or physical damage to this product.

WARNING

- Ensure you turn off the power of this device and all auxiliary devices when mounting, removing or connecting the wires of this device. There is a risk of electrical shock.
- Do not touch electrically charged parts such as the power supply terminals. Doing so might result in an electric shock.
- Do not disassemble this device.

OVERVIEW

This device is a dedicated sub-base for the burner controller BC-R series.

This sub-base should be mounted on a panel or the like. The controller itself is then mounted on the sub-base.

MOUNTING

CAUTION

- Mounting, wiring, maintenance, inspection, calibration, etc. should be carried out by a professional with technical training in combustion systems and flame safeguard control devices.
- Do not install where exposed to any of the following:
 - Certain chemicals or corrosive gases (ammonia, sulfur, chlorine, ethylene compounds, acids, etc.)
 - Dripping water or excessive humidity
 - High temperatures
 - Sustained long-term vibration
- For mounting and wiring, follow the instructions in this user's manual or in the combustion equipment manufacturer's manual.
- If a protective structure of IP40 or higher rating is required, use the sideboard (sold separately), or put the unit inside a panel that has an IP40 or higher protective structure.

■ Cautions regarding Installation

- Take space 50 mm above and below, 50 mm to the left and right, and 80 mm to the front, **as space for removal, wiring, and maintenance**. Also, do not install this device close to electric power devices or other sources of heat.

- This device must install within a grounded and conductive control panel to ensure safety.
- Do not pull the wiring while it is attached to the device. Doing so can cause failures of the connectors or this device itself.
